

Engineering Architecture Overview

Internal document • Version 1.0 • 2026-02-04

1. Systems

Our platform is composed of services for ingestion, indexing, retrieval, and optional generation.

2. Data Flow

- Connectors ingest content into the indexing pipeline.
- Documents are chunked and embedded into a vector store.
- Permissions are enforced before retrieval.

3. Notes

This document is confidential and intended for internal use only. If you have questions, contact the Policy Owner listed in the Responsibilities section.
